FOREWORD

An estimated 925,000 Missouri adults over age 18 experienced some form of mental illness in the past year—one-fifth of our adult population. Among these are 226,000 with serious mental illnesses that substantially limit their major life activities. In addition, Missouri has 17,000 adolescents and 353,000 adults with harmful and disruptive substance use disorders.

An important part of our mission is to develop and manage effective treatment services for individuals with mental and substance use disorders, and to support community education and prevention programs that reduce the need for those services. Prior to the inception of the Status Report in 1994, the Missouri Advisory Council on Alcohol and Drug Abuse adopted an Operational Plan that included several prevention and treatment objectives. One priority project was the development of an annual and consistent data set to assist communities and stakeholders to address, monitor, and prevent substance use and related disorders. Now in its 25th year, the Status Report continues to assemble national, state, and county behavioral and mental health data and examine trends.

Data from previous Status Reports and other sources are available to query in the Missouri Behavioral Health Data archive. Visit <https://seow.dmh.mo.gov/>. Please direct inquiries and comments regarding these data products to the Division's Research and Statistics office at dbhmail@dmh.mo.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard N. Gowdy".

Richard N. Gowdy, Ph.D.

ACKNOWLEDGMENTS

The Missouri Department of Mental Health, Division of Behavioral Health would like to thank the following individuals and their agencies for providing data during the past year for this 2019 edition of the Status Report:

Carol Bontempo, Missouri Department of Health and Senior Services
Avera Daniels, Missouri Department of Corrections
Susan Depue, Missouri Institute of Mental Health
Dong Ding, University of Missouri—Columbia
Venkata Garikpaty, Missouri Department of Health and Senior Services
TaNea Green, Missouri Office of State Courts Administrator
Amanda Horvath, Missouri Office of State Courts Administrator
Andrew Hunter, Missouri Department of Health and Senior Services
Rebecca Lander, Missouri Department of Health and Senior Services
Sara Linenfelser, Missouri Department of Social Services
Katie Long, Missouri Department of Health and Senior Services
Rick McElfresh, Missouri Office of State Courts Administrator
Angela McKee, Missouri Department of Health and Senior Services
Doug Middleton, Missouri Department of Public Safety
Richard Morrissey, Missouri Office of State Courts Administrator
Mary Mosley, Missouri Department of Health and Senior Services
Patricia Norton, Missouri Department of Mental Health
Mark Ritchey, Missouri Department of Public Safety
Renee Rothermich, Missouri Department of Mental Health
Susan Savage, Missouri Department of Social Services
Julie Starr, Missouri Department of Social Services
DeWayne Sprenger, Missouri Department of Public Safety
Michael Traver, Missouri Department of Social Services
Tanner Turley, Missouri Department of Health and Senior Services
Margaret Tyler, Missouri Department of Health and Senior Services
Rebecca Viet, Missouri Department of Social Services
Shannon Vondras, Missouri Institute of Mental Health
Blake Wenzel, Missouri Office of State Courts Administrator
Shimin Zhuang, Missouri Department of Social Services

DATA HIGHLIGHTS

MENTAL DISORDERS

State-level estimates from the National Survey on Drug Use and Health (NSDUH) highlight Missouri adults with mental health disorders, based on a recent two-year reporting period. The NSDUH indicates that 20% of Missouri's adult population—925,000 residents—had a mental illness in the past year, compared to 18% in the previous study. Missouri's estimated rates of past-year mental illness were higher among young adults than for those over age 25, and rates for Missouri's adults older than 25 were higher than U.S. rates.

Figure 1: Estimated Number of Missouri Adults with Past-Year Mental Illness

Data Source: U.S. Substance Abuse and Mental Health Services Administration (SAMHSA): National Survey on Drug Use and Health, 2016-2017. Adolescents 12-17 years of age are not included in the survey questions assessing mental illness.

An estimated 226,000—nearly 5% of Missouri adults—had serious mental illness during the past year. Serious mental illness (SMI) pertains to adults who have a diagnosable mental, behavioral, or emotional disorder with serious impairment that substantially interferes with important life activities. Major depression, bipolar mood, and schizophrenia comprise most of the SMI disorders. According to the NSDUH, during the past eight years the percentage of young adults with SMI has increased alarmingly nationwide. The latest survey indicates nearly 7% of Missouri adults 18-25 years of age had a past-year serious mental illness.

Figure 2: Trend in Rates of Serious Mental Illness among Missouri Adults

Data Source: SAMHSA: National Survey on Drug Use and Health.

DEPRESSION

Major depression accounts for some of the increase in serious mental illness. The NSDUH indicates that 367,000 Missouri adults and 68,000 adolescents had a major depressive episode (MDE) in the past year. The adolescent rate of MDE has increased each of the past five years, reaching 14.5% and surpassing the national rate of 13%.

Figure 3: Trend in Rates of Past-year Major Depressive Episodes among Missouri Residents

Data Source: SAMHSA: National Survey on Drug Use and Health.

According to NSDUH estimates, rates of past-year major depression among Missouri residents have generally been higher than U.S. rates. Similarly, the Behavioral Risk Factor Surveillance System (BRFSS) indicates that Missouri's rates for lifetime depressive disorder have consistently been higher than the national median. The Missouri rates are considerably higher for females than for males.

Figure 4: Trend in Rates of Past-year Major Depressive Episodes among Missouri Residents

Data Source: Centers for Disease Control and Prevention: Behavior Risk Factor Surveillance System.

In 2019, more than 31% of students completing the Missouri Assessment for College Health Behaviors (MACHB) survey experienced past-year major depression, compared to only 13% a decade earlier. Two-thirds of these students sought assistance for their depression. Almost one-fourth of the surveyed students indicated they had suicidal thoughts in the past year.

Figure 5: Trend in Rates of Past-Year Mental Disorders among Missouri College Students

Source: *Partners in Prevention Statewide Coalition, University of Missouri: Missouri Assessment of College Health Behaviors.*

SUICIDE

An estimated 186,000 Missouri adults had serious suicidal thoughts in the past year. While rates of suicide ideation among older adults have remained below 4% during the past several years, rates for adults 18-25 years of age have increased to nearly 10% in the most recent survey.

Figure 6: Trend in Rates of Past-Year Serious Thoughts of Suicide among Missouri Adults

Data Source: *SAMHSA: National Survey on Drug Use and Health.*

In the 2018 Missouri Student Survey, 14% of youth in grades 6-12 reported they seriously considered suicide in the past year, 11% made a plan, and 6% actually made a suicide attempt. Among college students surveyed in the 2019 MACHB, 23% reported past-year suicidal thoughts and 1.8% attempted suicide.

During the past 10 years, the rate of Missouri deaths due to suicide increased from 13.1 per 100,000 population in 2008 to 20.1 per 100,000 in 2018. During that same period, the homicide rate increased from 8.2 to 10.7 per 100,000 population.

Figure 7: Trend in Deaths among Missouri Residents Due to Suicide and Homicide

Data Source: *Missouri Department of Health and Senior Services.*

MENTAL HEALTH EMERGENCIES

In 2017, more than 66,000 Missouri residents who entered hospital emergency rooms had a mental disorder primary diagnosis according to medical coding. Among these were approximately 43,000 with a disorder classifiable as serious mental illness (SMI). Additionally, more than 284,000 individuals who received emergency room services in 2017 had a mental disorder secondary diagnosis.

SPECIALIZED TREATMENT FOR MENTAL HEALTH DISORDERS

In state fiscal year 2019, mental health centers funded by the Division of Behavioral Health (DBH) provided mental illness treatment services to more than 83,000 Missouri residents—approximately 43,000 females and 40,000 males. They included more than 20,000 children and adolescents and nearly 63,000 adults.

Figure 8: Mental Health Treatment Recipients by Age Group, Fiscal Year 2019

Data Source: *Missouri Department of Mental Health: Customer Information Management, Outcomes & Reporting system.*

The 83,000 individuals who received services in FY2019 had more than 142,000 diagnosed mental disorders. Mood disorders accounted for over one-third of the diagnoses.

Figure 9: Diagnosis Categories of Individuals Treated for Mental Illness in DBH-Funded Programs in FY2019

Data Source: Missouri Department of Mental Health: Customer Information Management, Outcomes & Reporting system.

The number of individuals treated for anxiety and fear disorders increased 50% between state fiscal years 2012 and 2019. Other notable increases were the numbers treated for trauma and stress, impulse control and conduct, and depressive mood disorders.

Figure 10: Trends in Disorders Treated in DBH-Funded Programs

Data Source: Missouri Department of Mental Health: Customer Information Management, Outcomes & Reporting system.

The percentage of Missouri college students who experienced past-year panic attacks more than doubled from 12.3% in 2009 to 27.6% in 2019.

Figure 11: Anxiety, Panic, and Sleep Disorders among Missouri College Students.

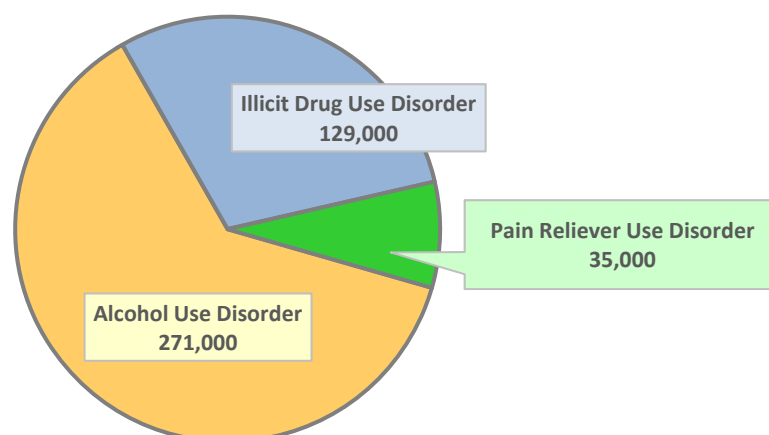

Data Source: Partners in Prevention Statewide Coalition, University of Missouri, Columbia, MO. Missouri Assessment of College Health Behaviors.

SUBSTANCE USE DISORDERS

Estimates from the NSDUH indicate more than 7% of Missouri's population 12 years of age and older—371,000—had a past-year substance use disorder (SUD). As with mental disorders, substance use disorders negatively affect important life functions, responsibilities, safety, or health. Estimates are available for three categories of substance use disorders: alcohol, illicit drugs, and pain relievers. Alcohol use disorders are the chief substance disorder. The NSDUH estimates 271,000 residents had alcohol use disorders in the past year. Additionally, 129,000 Missouri residents had illicit drug use disorders and 35,000 had disorders resulting from pain reliever use. The three categories total more than the overall SUD estimate because some individuals have disorders involving more than one type of substance.

Figure 12: Estimated Number of Missouri Residents with Past-year Substance Use Disorders

371,000 Missouri Residents with Substance Use Disorders

Data Source: SAMHSA: National Survey on Drug Use and Health, 2016-2017.

The estimated number of Missouri residents with a substance use disorder has gradually declined from the peak estimate of 499,000 in 2004. Most of this decline has been in the adolescent and young adult populations. The SUD estimate for adolescents decreased from 10.5% in the 2003-2004 NSDUH to 3.7% in 2016-2017. During that period, the rate for young adults dropped from 24% to about 13%. Among adults older than age 25, the SUD rate has hovered around 7% for longer than a decade.

Figure 13: Trend in Rates of Substance Use Disorders among Missouri Residents

Data Source: SAMHSA: National Survey on Drug Use and Health.

SUBSTANCE USE AMONG ADOLESCENTS

Over the past decade, the decrease in Missouri adolescent substance use disorders has included decreases in both alcohol and illicit drug use disorders. Rates for most substances have continued to decline. Past-month alcohol use appears to increase slightly in the 2016-2017 NSDUH and the 2018 Missouri Student Survey, while continuing to decline in the 2017 Youth Risk Behavior Survey.

Figure 14: Trend in Substance Use among Missouri Adolescents

Data Source: SAMHSA: National Survey on Drug Use and Health.

Figure 15: Trend in Substance Use among Missouri Secondary School Students

Data Source: Missouri Institute of Mental Health: Missouri Student Survey.

Despite the decline in the percentage of secondary school students who are using substances, Missouri public schools reported that more than 2,800 students were disciplined for violations of substance-related laws or school policies during the 2018-2019 school year. The number of drug discipline incidents has averaged 2,300 annually during the past 10 years while reported alcohol violations have averaged 450. Disciplinary action related to tobacco use has seen a recent upturn, presumably due to an increase in youth vaping.

Figure 16: Public School Discipline Incidents Involving Substance Use

Data Source: Missouri Department of Elementary and Secondary Education.

STUDENT VIOLENCE

Schools discipline incidents related to violent behavior have declined 50% during the past 10 years, while weapons offenses have declined 30%.

Figure 17: Public School Discipline Incidents Involving Weapons and Violence

Data Source: Missouri Department of Elementary and Secondary Education.

JUVENILE COURT REFERRALS

The number of adolescents cited and referred to juvenile courts for alcohol and drug offenses has declined considerably during the past two decades. In 2018 there were 1,570 juvenile court referrals for drug offenses compared to 3,280 in the year 2000. During that same period, alcohol offense referrals dropped from 1,503 to 381. Court referrals for juvenile violent offenses declined from 11,648 in 2000 to 5,456 in 2018.

Figure 18: Referrals to Missouri Juvenile Courts for Selected Offenses

Data Source: Missouri Office of State Courts Administrator.

SUBSTANCE USE AMONG YOUNG ADULTS

Among Missouri adults 18-25 years, reductions in alcohol use disorders have been the chief factor in the decline in SUD rates. Alcohol use disorders in this young adult group have dropped from nearly 20% in 2003 to 9.5% in 2017. Alcohol use and binge drinking are trending downward. In contrast, illicit drug use disorders have only declined from 8.5% to 6.2% during the same period. While marijuana use in this age group has increased in recent years, past month use of other illicit drugs has dipped to under 6% after reaching 9% a decade ago.

Figure 19: Trend in Substance Use among Missouri Young Adults

Data Source: SAMHSA: National Survey on Drug Use and Health.

Nearly 61% of students who completed the 2019 Missouri Assessment of College Health Behaviors survey reported past-month alcohol use—a reduction of six percentage points from the 67% a decade earlier. Although cigarette use continues to decline, overall tobacco use took an upturn in 2019. About 30% of Missouri college students have used marijuana during the past year, consistent with the 32% NSDUH estimate for young adults ages 18-25. More than 5% of college students have used illicit stimulants in the past year, and 4% have used cocaine.

Figure 20: Trend in Substance Use among Missouri Young Adults

Data Source: Partners in Prevention Statewide Coalition, University of Missouri, Columbia, MO. Missouri Assessment of College Health Behaviors.

SUBSTANCE USE AMONG OLDER ADULTS

Seven percent of Missouri adults older than age 25 have substance use disorders. This rate has shown little fluctuation during the past 14 years. About 5% of these older adults have alcohol use disorders and 2% have illicit drug use disorders. In the most recent NSDUH surveys, 55% of Missouri's older adults were past-month alcohol users including 25% who were past-month binge drinkers. The estimated rates of binge drinking for this age group have been increasing since 2010. Past-month illicit drug use is also increasing, reaching 9% of adults older than 25. Marijuana use—at 7%—accounts for most of this increase. Past-year marijuana use among older adults has increased to 11%, compared to 7% ten years ago. Approximately 1% of the over-25 age group are past-year users of cocaine and methamphetamine, and about one-third of a percent are using heroin. Tobacco use has declined to 29% in this age group, and cigarette smoking to 23%. Missouri adult males have considerably higher rates of past-month binge drinking than adult females, according to the Behavioral Risk Factor Survey.

Figure 21: Trend in Substance Use among Missouri's Older Adults

Data Source: SAMHSA: National Survey on Drug Use and Health.

SUBSTANCE USE EMERGENCIES

In 2017, more than 42,000 Missouri residents entered hospital emergency rooms with a substance use disorder primary diagnosis. They included 24,000 with an alcohol use disorder and 18,000 with a drug use disorder. Emergency rooms discharged more than 33,000 after providing emergency services but admitted 9,000 to hospitals for further medical treatment. Emergency rooms also treated 50,000 Missouri residents with secondary alcohol disorders and 64,000 with secondary drug disorders.

SPECIALIZED TREATMENT FOR SUBSTANCE USE DISORDERS

In state fiscal year 2018, behavioral health treatment centers funded by the Division of Behavioral Health admitted more than 50,000 Missouri residents for substance disorder services. Admissions included more than 33,000 for substance disorder treatment and 17,000 for substance-related traffic offender assessments and services. Among those admitted for treatment were 21,000 males and nearly 13,000 females.

Figure 22: Substance Use Disorder Treatment Recipients by Age Group, Fiscal Year 2018

Data Source: Missouri Department of Mental Health: Customer Information Management, Outcomes & Reporting system.

Alcohol use was the primary concern in nearly 10,000 of the substance treatment admissions. Stimulant use—mainly methamphetamines—accounted for more than 8,000 admissions. Nearly 8,000 treatment admissions involved heroin and other pain reliever use. Marijuana—with over 6,000 admissions—and cocaine with 1,000 accounted for most of the remainder.

Figure 21: Primary Drug Problem among Individuals Admitted for Substance Use Treatment, FY2018

Data Source: Missouri Department of Mental Health: Customer Information Management, Outcomes & Reporting system.

TRENDS IN TREATMENT OF SUBSTANCE USE DISORDERS

Considerable changes have occurred during the past decade in the substances identified in treatment admissions. In FY2009, two-thirds of the treatment admissions were for alcohol or marijuana. Heroin and other pain relievers, methamphetamine and other stimulants, and crack and other cocaine each accounted for about one-tenth of the admissions. Since then, there have been increases in treatment admissions for meth and heroin use and declines in admissions for alcohol, marijuana, and cocaine.

Figure 23: Trend in Primary Drug Problem among Individuals Admitted for Substance Use Treatment

Data Source: Missouri Department of Mental Health: Customer Information Management, Outcomes & Reporting system.

DEATHS RESULTING FROM SUBSTANCE USE

While deaths attributable to cigarette smoking are slowly declining after reaching a peak of 10,300 in 2015, deaths with an underlying cause of alcohol and drug use continue to climb. Opioids account for most of the drug-induced deaths in Missouri. In 2018, heroin and other opioid overdose deaths reached 1,132.

Figure 24: Trend in Missouri Substance Induced Deaths

Data Source: Missouri Department of Health and Senior Services.

DRUG ARRESTS

Arrests for illicit drug possession plateaued at 40,000 arrests in Missouri in 2017, then declined to about 37,000 in 2018. Arrests for illicit drug selling or manufacturing have declined from 7,910 arrests in 2002 to 2,373 in 2018—a 70% reduction.

Figure 25: Missouri Arrests for Possession and Sale/Manufacturing of Illicit Drugs

Data Source: Missouri State Highway Patrol, Statistical Analysis Center. Uniform Crime Reports (UCR).

Prison admissions for drug convictions have also begun to level off yet remain at 6,000 new incarcerations per year. More than 10,000 individuals per year are placed on probation for drug violations.

Figure 26: Disposition of Missouri Drug Convictions

Data Source: Missouri Department of Corrections.

IMPAIRED DRIVING

Substance-impaired driving contributes to more than 6,000 traffic crashes every year in Missouri. In 2018, 253 individuals died in crashes caused by alcohol or drug impaired drivers.

Figure 27: Traffic Crashes Attributed to Substance Impairment

Data Source: Missouri State Highway Patrol, Statistical Analysis Center. Missouri Traffic Safety Compendium: 2018.

Distracted or inattentive driving is a factor in 20,000 crashes annually, and driver fatigue or falling asleep is a factor in nearly 3,000 more.

Figure 28: Traffic Crashes Attributed to Inattention

Data Source: Missouri State Highway Patrol, Statistical Analysis Center. Missouri Traffic Safety Compendium: 2018.

INTERVENTIONS FOR IMPAIRED DRIVING

Arrests for substance-impaired driving are declining. Data from the Missouri DWI Tracking System (DWITS) indicates that arrests for driving under the influence of alcohol or drugs have decreased from 39,552 in 2006 to 22,030 in 2018—a 44% reduction.

Figure 29: Missouri Arrests for Driving Under the Influence of Alcohol or Drugs, and Traffic Crashes Involving Driver Under the Influence of Alcohol or Drugs

Data Source: Missouri State Highway Patrol, Statistical Analysis Center. DWI Tracking System (DWITS) and Uniform Crime Reports (UCR).

The number of individuals clinically assessed in the Substance Awareness Traffic Offender Program (SATOP) has likewise declined—from 30,749 in FY 2009 to 16,644 in FY 2019. Based on their assessments, traffic offenders are referred to education, intervention, or treatment services. Every year, 40% to 45% of the assessed offenders are admitted to SATOP intervention or clinical treatment programs (WIP, CIP, YCIP, or SROP).

Figure 30: SATOP Assessments and Program Admissions by Fiscal Year

Data Source: Missouri Department of Mental Health: Customer Information Management, Outcomes & Reporting system.

Aside from SATOP, some DWI offenders—particularly prior and persistent offenders—are placed on probation or sentenced to jail or prison. State incarcerations and probation openings have followed the downward trend of impaired driving arrests.

Figure 31: Disposition of Missouri DWI Convictions

Data Source: Missouri Department of Corrections.

OUT-OF-HOME JUVENILE PLACEMENTS

Children may be removed from their homes by juvenile authorities and placed in alternate care when unfavorable conditions are present in the home. In 2018, nearly 7,000 children were removed from their homes. Over 12,000 conditions were documented in the placements, with some cases involving more than one adverse condition. Every year, parental drug use tops the list of removal conditions.

Figure 32: Conditions Present in Removal of Children from Homes by Juvenile Authorities

Past-Month Marijuana Use: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

MARIJUANA USE IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Year Marijuana Use: U.S. and Missouri Ages 12 and Older

Past-Year Marijuana Use: U.S. and Missouri Ages 12-17

Past-Year Marijuana Use: U.S. and Missouri Ages 18-25

Past-Year Marijuana Use: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

FIRST-TIME USE OF MARIJUANA IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Year First Use of Marijuana: U.S. and Missouri Ages 12 and Older

Past-Year First Use of Marijuana: U.S. and Missouri Ages 12-17

Past-Year First Use of Marijuana: U.S. and Missouri Ages 18-25

Past-Year First Use of Marijuana: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

PERCEPTION OF RISK IN USING MARIJUANA: U.S. AND MISSOURI AGE GROUP COMPARISONS

Perceive Great Risk in Smoking Marijuana Once a Month: U.S. and Missouri Ages 12 and Older

Perceive Great Risk in Smoking Marijuana Once a Month: U.S. and Missouri Ages 12-17

Perceive Great Risk in Smoking Marijuana Once a Month: U.S. and Missouri Ages 18-25

Perceive Great Risk in Smoking Marijuana Once a Month: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.
Data are not available for 2014-2015 for this measure.

COCAINE USE IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Year Cocaine Use: U.S. and Missouri Ages 12 and Older

Past-Year Cocaine Use: U.S. and Missouri Ages 12-17

Past-Year Cocaine Use: U.S. and Missouri Ages 18-25

Past-Year Cocaine Use: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

PERCEPTION OF RISK IN USING COCAINE: U.S. AND MISSOURI AGE GROUP COMPARISONS

Perceive Great Risk in Using Cocaine Once a Month: U.S. and Missouri Ages 12 and Older

Perceive Great Risk in Using Cocaine Once a Month: U.S. and Missouri Ages 12-17

Perceive Great Risk in Using Cocaine Once a Month: U.S. and Missouri Ages 18-25

Perceive Great Risk in Using Cocaine Once a Month: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

METHAMPHETAMINE USE IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Year Methamphetamine Use: U.S. and Missouri Ages 12 and Older

Past-Year Methamphetamine Use: U.S. and Missouri Ages 12-17

Past-Year Methamphetamine Use: U.S. and Missouri Ages 18-25

Past-Year Methamphetamine Use: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages. 2016-2017 is the first time period available for this measure.

HEROIN USE IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Year Use of Heroin: U.S. and Missouri Ages 12 and Older

Past-Year Use of Heroin: U.S. and Missouri Ages 12-17

Past-Year Use of Heroin: U.S. and Missouri Ages 18-25

Past-Year Use of Heroin: U.S. and Missouri Ages 26 and Older: 2003-2017

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

PERCEPTION OF RISK IN TRYING HEROIN: U.S. AND MISSOURI AGE GROUP COMPARISONS

Perceive Great Risk in Trying Heroin Once or Twice: U.S. and Missouri Ages 12 and Older

Perceive Great Risk in Trying Heroin Once or Twice: U.S. and Missouri Ages 12-17

Perceive Great Risk in Trying Heroin Once or Twice: U.S. and Missouri Ages 18-25

Perceive Great Risk in Trying Heroin Once or Twice: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

PAIN RELIEVER MISUSE IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Year Pain Reliever Misuse: U.S. and Missouri Ages 12 and Older

Past-Year Pain Reliever Misuse: U.S. and Missouri Ages 12-17

Past-Year Pain Reliever Misuse: U.S. and Missouri Ages 18-25

Past-Year Pain Reliever Misuse: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

PAIN RELIEVER USE DISORDER IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Year Pain Reliever Use Disorder: U.S. and Missouri Ages 12 and Older

Past-Year Pain Reliever Use Disorder: U.S. and Missouri Ages 12-17

Past-Year Pain Reliever Use Disorder: U.S. and Missouri Ages 18-25

Past-Year Pain Reliever Use Disorder: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

ILLICIT DRUG USE IN PAST MONTH: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Month Illicit Drug Use: U.S. and Missouri Ages 12 and Older

Past-Month Illicit Drug Use: U.S. and Missouri Ages 12-17

Past-Month Illicit Drug Use: U.S. and Missouri Ages 18-25

Past-Month Illicit Drug Use: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages. Data are not available for 2014-2015 for this measure.

ILLICIT DRUG USE OTHER THAN MARIJUANA IN PAST MONTH: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Month Illicit Drug Use Other Than Marijuana: U.S. and Missouri Ages 12 and Older

Past-Month Illicit Drug Use Other Than Marijuana: U.S. and Missouri Ages 12-17

Past-Month Illicit Drug Use Other Than Marijuana: U.S. and Missouri Ages 18-25

Past-Month Illicit Drug Use Other Than Marijuana: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages. Data are not available for 2014-2015 for this measure.

ILLICIT DRUG USE DISORDER IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Year Illicit Drug Use Disorder: U.S. and Missouri Ages 12 and Older

Past-Year Illicit Drug Use Disorder: U.S. and Missouri Ages 12-17

Past-Year Illicit Drug Use Disorder: U.S. and Missouri Ages 18-25

Past-Year Illicit Drug Use Disorder: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.
Data are not available for 2014-2015 for this measure.

UNMET NEED FOR ILLICIT DRUG USE TREATMENT: U.S. AND MISSOURI AGE GROUP COMPARISONS

Needing but Not Receiving Specialty Treatment for Illicit Drug Use Disorder in Past Year: U.S. and Missouri Ages 12 and Older

Needing but Not Receiving Specialty Treatment for Illicit Drug Use Disorder in Past Year: U.S. and Missouri Ages 12-17

Needing but Not Receiving Specialty Treatment for Illicit Drug Use Disorder in Past Year: U.S. and Missouri Ages 18-25

Needing but Not Receiving Specialty Treatment for Illicit Drug Use Disorder in Past Year: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages. Data are not available for 2014-2015 for this measure.

SUBSTANCE USE DISORDER IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Year Substance Use Disorder: U.S. and Missouri Ages 12 and Older

Past-Year Substance Use Disorder: U.S. and Missouri Ages 12-17

Past-Year Substance Use Disorder: U.S. and Missouri Ages 18-25

Past-Year Substance Use Disorder: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages. Data are not available for 2014-2015 for this measure.

UNMET NEED FOR SUBSTANCE USE TREATMENT: U.S. AND MISSOURI AGE GROUP COMPARISONS

Needing but Not Receiving Specialty Treatment for Substance Use Disorder in Past Year: U.S. and Missouri Ages 12 and Older

Needing but Not Receiving Specialty Treatment for Substance Use Disorder in Past Year: U.S. and Missouri Ages 12-17

Needing but Not Receiving Specialty Treatment for Substance Use Disorder in Past Year: U.S. and Missouri Ages 18-25

Needing but Not Receiving Specialty Treatment for Substance Use Disorder in Past Year: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

ANY MENTAL ILLNESS IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Any Mental Illness in Past Year: U.S. and Missouri Ages 18 and Older

Any Mental Illness in Past Year: U.S. and Missouri Ages 18-25

Any Mental Illness in Past Year: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

SERIOUS MENTAL ILLNESS IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Serious Mental Illness in Past Year: U.S. and Missouri Ages 18 and Older

Serious Mental Illness in Past Year: U.S. and Missouri Ages 18-25

Serious Mental Illness in Past Year: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

MAJOR DEPRESSIVE EPISODE IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Year Major Depressive Episode: U.S. and Missouri Ages 18 and Older

Past-Year Major Depressive Episode: U.S. and Missouri Ages 12-17

Past-Year Major Depressive Episode: U.S. and Missouri Ages 18-25

Past-Year Major Depressive Episode: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

SERIOUS THOUGHTS OF SUICIDE IN PAST YEAR: U.S. AND MISSOURI AGE GROUP COMPARISONS

Past-Year Serious Thoughts of Suicide: U.S. and Missouri Ages 18 and Older

Past-Year Serious Thoughts of Suicide: U.S. and Missouri Ages 18-25

Past-Year Serious Thoughts of Suicide: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

RECEIPT OF MENTAL HEALTH TREATMENT: U.S. AND MISSOURI AGE GROUP COMPARISONS

Received Mental Health Services in Past Year: U.S. and Missouri Ages 18 and Older

Received Mental Health Services in Past Year: U.S. and Missouri Ages 18-25

Received Mental Health Services in Past Year: U.S. and Missouri Ages 26 and Older

Data Source (all charts): U.S. Department of Health and Human Services, SAMHSA. National Survey on Drug Use and Health. Estimates are 2-year averages.

SUBSTANCE USE: U.S. POPULATION AGES 12 AND OLDER

Past-Year Use of Inhalants in the United States by Age

Lifetime Use of Inhalants in the United States by Age

Data Source: U.S. Dept of Health and Human Services, SAMHSA. National Survey on Drug Use and Health (NSDUH).
 Estimates are based on surveys conducted in 2016.
 A value of 0.0 indicates estimate is less than 0.05% or estimate is not provided due to low precision.

COCAINE USE

Past-Month Use of Cocaine in the United States by Age

Past-Year Use of Cocaine in the United States by Age

Lifetime Use of Cocaine in the United States by Age

Data Source: U.S. Dept of Health and Human Services, SAMHSA. National Survey on Drug Use and Health (NSDUH).

Estimates are based on surveys conducted in 2016.

A value of 0.0 indicates estimate is less than 0.05% or estimate is not provided due to low precision.

Cocaine use includes the use of crack cocaine.

CRACK COCAINE USE

Past-Month Use of Crack Cocaine in the United States by Age

Past-Year Use of Crack Cocaine in the United States by Age

Lifetime Use of Crack Cocaine in the United States by Age

Data Source: U.S. Dept of Health and Human Services, SAMHSA. National Survey on Drug Use and Health (NSDUH).
 Estimates are based on surveys conducted in 2016.
 A value of 0.0 indicates estimate is less than 0.05% or estimate is not provided due to low precision.

METHAMPHETAMINE USE

Past-Month Use of Methamphetamine in the United States by Age

Past-Year Use of Methamphetamine in the United States by Age

Lifetime Use of Methamphetamine in the United States by Age

Data Source: U.S. Dept of Health and Human Services, SAMHSA. National Survey on Drug Use and Health (NSDUH).

Estimates are based on surveys conducted in 2016.

A value of 0.0 indicates estimate is less than 0.05% or estimate is not provided due to low precision.

OPIOID MISUSE

Past-Month Misuse of Opioids in the United States by Age

Past-Year Misuse of Opioids in the United States by Age

Data Source: U.S. Dept of Health and Human Services, SAMHSA. National Survey on Drug Use and Health (NSDUH).
 Estimates are based on surveys conducted in 2016.
 A value of 0.0 indicates estimate is less than 0.05% or estimate is not provided due to low precision.
 Opioid misuse refers to the use of heroin or the misuse of prescription pain relievers.

ILLICIT DRUG USE

Past-Month Use of Any Illicit Drug in the United States by Age

Past-Year Use of Any Illicit Drug in the United States by Age

Lifetime Use of Any Illicit Drug in the United States by Age

Data Source: U.S. Dept of Health and Human Services, SAMHSA. National Survey on Drug Use and Health (NSDUH).

Estimates are based on surveys conducted in 2016.

A value of 0.0 indicates estimate is less than 0.05% or estimate is not provided due to low precision.

ALCOHOL USE: MISSOURI STUDENTS IN GRADES 6-12

Past 30-Day Use of Alcohol: Missouri Students in Grades 6-12

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

Lifetime Use of Alcohol: Missouri Students in Grades 6-12

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

BINGE DRINKING: MISSOURI STUDENTS IN GRADES 6-12

Past 2-Week Binge Alcohol Use, 5 or More Drinks on Same Occasion: Missouri Students in Grades 6-12

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted. 2010 data are not available for this measure.

IMPAIRED DRIVING: MISSOURI STUDENTS IN GRADES 6-12

Past 30-Day Driving Vehicle After Drinking Alcohol (%): Missouri Students in Grades 6-12, 2006-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

Past 30-Day Riding in Vehicle Driven by Someone Who Had Been Drinking (%): Missouri Students in Grades 6-12, 2006-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

CIGARETTE USE: MISSOURI STUDENTS IN GRADES 6-12

Past 30-Day Use of Cigarettes: Missouri Students in Grades 6-12

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

Lifetime Use of Cigarettes: Missouri Students in Grades 6-12

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

ELECTRONIC CIGARETTE USE: MISSOURI STUDENTS IN GRADES 6-12

Past 30-Day Use of Electronic Cigarettes (%): Missouri Students in Grades 6-12, 2014-2018 *

* In the Missouri Student Survey questionnaire, e-cigs, mods, and vapes are listed as examples of electronic cigarettes.

Lifetime Use of Electronic Cigarettes (%): Missouri Students in Grades 6-12, 2014-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

CHEWING TOBACCO USE: MISSOURI STUDENTS IN GRADES 6-12

Past 30-Day Use of Chewing Tobacco: Missouri Students in Grades 6-12

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

Lifetime Use of Chewing Tobacco: Missouri Students in Grades 6-12

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

HOOKAH USE: MISSOURI STUDENTS IN GRADES 6-12

Past 30-Day Hookah Use (%): Missouri Students in Grades 6-12, 2014-2018 *

* In the Missouri Student Survey questionnaire, water pipes are referenced as hookahs.

Lifetime Hookah Use (%): Missouri Students in Grades 6-12, 2014-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

INHALANT USE: MISSOURI STUDENTS IN GRADES 6-12

Past 30-Day Use of Inhalants (%): Missouri Students in Grades 6-12, 2010-2018 *

* In the Missouri Student Survey questionnaire, gas in aerosol cans, whippets, gasoline, white out, glue, and marking pens are listed as examples of liquids, sprays, and gases that are inhaled.

Lifetime Use of Inhalants (%): Missouri Students in Grades 6-12, 2010-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

MARIJUANA USE: MISSOURI STUDENTS IN GRADES 6-12

Past 30-Day Use of Marijuana (%): Missouri Students in Grades 6-12, 2010-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

Lifetime Use of Marijuana (%): Missouri Students in Grades 6-12, 2010-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

HALLUCINOGEN USE: MISSOURI STUDENTS IN GRADES 6-12

Lifetime Use of Hallucinogens (%): Missouri Students in Grades 6-12, 2010-2018 *

* In the Missouri Student Survey questionnaire, LSD (acid), PCP (angel dust), Magic Mushrooms, Mescaline, Peyote, and Psilocybin are listed as examples of hallucinogens.

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

CLUB DRUG USE: MISSOURI STUDENTS IN GRADES 6-12

Lifetime Use of Club Drugs* : Missouri Students in Grades 6-12

* In the Missouri Student Survey questionnaire, MDMA (molly, ecstasy, X, E), GHB (G), Rohypnol (roofie), and Ketamine (Special K) are listed as examples of club drugs.

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

SYNTHETIC DRUG USE: MISSOURI STUDENTS IN GRADES 6-12

Past 30-Day Use of Synthetic Drugs (%): Missouri Students in Grades 6-12, 2012-2018 *

* In the Missouri Student Survey questionnaire, K2, bath salts, plant food, and Spice are listed as examples of synthetic drugs.

Lifetime Use of Synthetic Drugs (%): Missouri Students in Grades 6-12, 2012-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

COCAINE USE: MISSOURI STUDENTS IN GRADES 6-12

Lifetime Use of Cocaine: Missouri Students in Grades 6-12

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

METHAMPHETAMINE USE: MISSOURI STUDENTS IN GRADES 6-12

Lifetime Use of Methamphetamine (%): Missouri Students in Grades 6-12, 2010-2018

* In the Missouri Student Survey questionnaire, meth, crank, crystal, and ice are listed as examples of methamphetamine.

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

HEROIN USE: MISSOURI STUDENTS IN GRADES 6-12

Lifetime Use of Heroin (%): Missouri Students in Grades 6-12, 2010-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

OVER-THE-COUNTER MEDICATION USE: MISSOURI STUDENTS IN GRADES 6-12

Past 30-Day Non-medical Use of Over-the-Counter Medicines (%): Missouri Students in Grades 6-12, 2010-2018 *

* In the Missouri Student Survey questionnaire, Coricidin Cough, Sudafed, TheraFlu, and Tylenol Cough are listed as examples of over-the-counter medicines.

Lifetime Non-medical Use of Over-the-Counter Medicines (%): Missouri Students in Grades 6-12, 2010-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

PHARMACEUTICAL DRUG USE: MISSOURI STUDENTS IN GRADES 6-12

Past 30-Day Use of Non-Prescribed Pharmaceutical Drugs (%): Missouri Students in Grades 6-12, 2010-2018

* In the Missouri Student Survey questionnaire, OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, and Xanax are listed as examples of prescription drugs.

Lifetime Use of Non-Prescribed Pharmaceutical Drugs (%): Missouri Students in Grades 6-12, 2010-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

STEROID USE: MISSOURI STUDENTS IN GRADES 6-12

Lifetime Use of Non-Prescribed Steroids (%): Missouri Students in Grades 6-12, 2006-2014 *

* Steroid measure was not included in the 2016 and 2018 surveys.

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

DEPRESSION: MISSOURI STUDENTS IN GRADES 6-12

Feeling Hopeless Always or Often during Past 30 Days (%): Missouri Students in Grades 6-12, 2010-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

Feeling Very Sad Always or Often during Past 30 Days (%): Missouri Students in Grades 6-12, 2010-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

DEPRESSION: MISSOURI STUDENTS IN GRADES 6-12

Feeling Hopeless Always or Often during Past 30 Days (%): Missouri Students in Grades 6-12, 2010-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

Feeling Very Sad Always or Often during Past 30 Days (%): Missouri Students in Grades 6-12, 2010-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

SUICIDE: MISSOURI STUDENTS IN GRADES 6-12

Attempting Suicide during the Past Year (%): Missouri Students in Grades 6-12, 2006-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

Considering Suicide during the Past Year (%): Missouri Students in Grades 6-12, 2006-2018

Data Source: Missouri Institute of Mental Health. Missouri Student Survey. Data are weighted.

ALCOHOL USE BY MOTHERS OF NEWBORNS

Any Alcohol Use by Mothers of Newborns during the 3 Months Before Pregnancy

Any Alcohol Use by Mothers of Newborns during the Last 3 Months of Pregnancy

Data Sources:

Missouri Department of Health and Senior Services, Office of Epidemiology.

U.S. Department of Health and Human Services, Centers for Disease Control and Prevention: Pregnancy Risk Assessment Monitoring System.

CIGARETTE USE BY MOTHERS OF NEWBORNS

Cigarette Use by Mothers of Newborns during the 3 Months Before Pregnancy

Cigarette Use by Mothers of Newborns during the Last 3 Months of Pregnancy

Cigarette Use by Mothers of Newborns Postpartum

Data Sources:

Missouri Department of Health and Senior Services, Office of Epidemiology.

U.S. Department of Health and Human Services, Centers for Disease Control and Prevention: Pregnancy Risk Assessment Monitoring System.

PAST 30-DAY ALCOHOL USE: U.S. AND MISSOURI STUDENTS IN GRADES 9-12

Past 30-Day Alcohol Use (%): U.S. and Missouri Students in Grade 9

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

Past 30-Day Alcohol Use (%): U.S. and Missouri Students in Grade 10

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

Past 30-Day Alcohol Use (%): U.S. and Missouri Students in Grade 11

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

Past 30-Day Alcohol Use (%): U.S. and Missouri Students in Grade 12

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey.

Data shown are weighted estimates. 2011 Missouri estimates are not available due to insufficient survey response rate.

PAST 30-DAY BINGE ALCOHOL USE: U.S. AND MISSOURI STUDENTS IN GRADES 9-12

Past 30-Day Binge Alcohol Use (%): U.S. and Missouri Students in Grade 9

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

Past 30-Day Binge Alcohol Use (%): U.S. and Missouri Students in Grade 10

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

Past 30-Day Binge Alcohol Use (%): U.S. and Missouri Students in Grade 11

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

Past 30-Day Binge Alcohol Use (%): U.S. and Missouri Students in Grade 12

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey.

Data shown are weighted estimates. 2011 Missouri estimates are not available due to insufficient survey response rate.

ALCOHOL USE BEFORE AGE 13: U.S. AND MISSOURI STUDENTS IN GRADES 9-12

First Use of Alcohol Before Age 13 (%): U.S. and Missouri Students in Grade 9

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

First Use of Alcohol Before Age 13 (%): U.S. and Missouri Students in Grade 10

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

First Use of Alcohol Before Age 13 (%): U.S. and Missouri Students in Grade 11

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

First Use of Alcohol Before Age 13 (%): U.S. and Missouri Students in Grade 12

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey.

Data shown are weighted estimates. 2011 Missouri estimates are not available due to insufficient survey response rate.

PAST 30-DAY CIGARETTE USE: U.S. AND MISSOURI STUDENTS IN GRADES 9-12

Past 30-Day Cigarette Use (%): U.S. and Missouri Students in Grade 9

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

Past 30-Day Cigarette Use (%): U.S. and Missouri Students in Grade 10

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

Past 30-Day Cigarette Use (%): U.S. and Missouri Students in Grade 11

Data Source: U.S. Dept. of HHS, Centers for Disease Control and Prevention. Estimates from the Youth Risk Behavior Survey

Past 30-Day Cigarette Use (%): U.S. and Missouri Students in Grade 12

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey.

Data shown are weighted estimates. 2011 Missouri estimates are not available due to insufficient survey response rate.

PAST 30-DAY MARIJUANA USE: U.S. AND MISSOURI STUDENTS IN GRADES 9-12

Past 30-Day Marijuana Use (%): U.S. and Missouri Students in Grade 9

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey

Past 30-Day Marijuana Use (%): U.S. and Missouri Students in Grade 10

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey

Past 30-Day Marijuana Use (%): U.S. and Missouri Students in Grade 11

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey

Past 30-Day Marijuana Use (%): U.S. and Missouri Students in Grade 12

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey.

Data shown are weighted estimates. 2011 Missouri estimates are not available due to insufficient survey response rate.

SERIOUSLY CONSIDERED SUICIDE: U.S. AND MISSOURI STUDENTS IN GRADES 9-12

Seriously Considered Attempting Suicide during Past Year (%): U.S. and Missouri Students in Grade 9

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey

Seriously Considered Attempting Suicide during Past Year (%): U.S. and Missouri Students in Grade 10

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey

Seriously Considered Attempting Suicide during Past Year (%): U.S. and Missouri Students in Grade 11

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey

Seriously Considered Attempting Suicide during Past Year (%): U.S. and Missouri Students in Grade 12

Data Source: U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Youth Risk Behavior Survey.

Data shown are weighted estimates. 2011 Missouri estimates are not available due to insufficient survey response rate.

NA Data not available.

- 1 Use of the substance on all 30 days during the 30 days prior to the survey.
- 2 Use of the substance on at least 1 day during the 30 days prior to the survey
- 3 Binge alcohol use in the YRBS is defined as males consuming 5 or more drinks in a row and females consuming 4 or more drinks in a row within a couple of hours on at least one day during the past 30 days.
- 4 Use of cigarettes on 20 or more days during the 30 days prior to the survey.
- 5 Percentages are among the current smokers.
- 6 Does not include electronic vapor products.
- 7 Use of smokeless tobacco products on 20 or more days during the 30 days prior to the survey.
- 8 Used electronic vapor product on 20 or more days during the 30 days prior to the survey.
- 9 Use of the substance at least once in lifetime.
- 10 Prescription pain medicine without a doctor's prescription or differently than how doctor instructed to use it.
- 11 Student was offered, sold, or given an illegal drug on school property.

Values shown are weighted estimates based on sampling. Apparent differences in values may not be statistically significant due to relatively small numbers of Missouri survey respondents.

NA Data not available.

- 1 Use of the substance on all 30 days during the 30 days prior to the survey.
- 2 Use of the substance on at least 1 day during the 30 days prior to the survey
- 3 Binge alcohol use in the YRBS is defined as males consuming 5 or more drinks in a row and females consuming 4 or more drinks in a row within a couple of hours on at least one day during the past 30 days.
- 4 Use of cigarettes on 20 or more days during the 30 days prior to the survey.
- 5 Percentages are among the current smokers.
- 6 Does not include electronic vapor products.
- 7 Use of smokeless tobacco products on 20 or more days during the 30 days prior to the survey.
- 8 Used electronic vapor product on 20 or more days during the 30 days prior to the survey.
- 9 Use of the substance at least once in lifetime.
- 10 Prescription pain medicine without a doctor's prescription or differently than how doctor instructed to use it.
- 11 Student was offered, sold, or given an illegal drug on school property.

Values shown are weighted estimates based on sampling. Apparent differences in values may not be statistically significant due to relatively small numbers of Missouri survey respondents.

NA Data not available.

- 1 Use of the substance on all 30 days during the 30 days prior to the survey.
- 2 Use of the substance on at least 1 day during the 30 days prior to the survey
- 3 Binge alcohol use in the YRBS is defined as males consuming 5 or more drinks in a row and females consuming 4 or more drinks in a row within a couple of hours on at least one day during the past 30 days.
- 4 Use of cigarettes on 20 or more days during the 30 days prior to the survey.
- 5 Percentages are among the current smokers.
- 6 Does not include electronic vapor products.
- 7 Use of smokeless tobacco products on 20 or more days during the 30 days prior to the survey.
- 8 Used electronic vapor product on 20 or more days during the 30 days prior to the survey.
- 9 Use of the substance at least once in lifetime.
- 10 Prescription pain medicine without a doctor's prescription or differently than how doctor instructed to use it.
- 11 Student was offered, sold, or given an illegal drug on school property.

Values shown are weighted estimates based on sampling. Apparent differences in values may not be statistically significant due to relatively small numbers of Missouri survey respondents.

Data Source: Youth Risk Behavioral Surveillance System (YRBSS), Youth Online High School YRBS, U.S. Department of Health and Human Services, Centers for Disease Control and Prevention.

ALCOHOL USE

Alcohol Use in the Past 30 Days among Adults 18 Years of Age and Older (%)

Binge Alcohol Use in the Past 30 Days among Adults 18 Years of Age and Older (%)

Binge alcohol use is defined in the BRFSS as males having 5 or more drinks on one occasion and females having 4 or more drinks on one occasion.

Heavy Alcohol Use in the Past 30 Days among Adults 18 Years of Age and Older (%)

Heavy alcohol use in the BRFSS is defined as adult males having more than 14 drinks per week and adult females having more than 7 drinks per week.

Data Source: Behavioral Risk Factor Survey, Behavioral Risk Factor Surveillance System (BRFSS), Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Division of Population Health.

Note: Small differences in rate estimates for Missouri year-to-year and Missouri/U.S. comparisons might not be statistically significant.

TOBACCO USE

Current Tobacco Smoking among Adults 18 Years of Age and Older (%)

Former Smokers among Adults 18 Years of Age and Older (%)

Adults 18 Years of Age and Older Who Never Smoked (%)

Data Source: Behavioral Risk Factor Survey, Behavioral Risk Factor Surveillance System (BRFSS), Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Division of Population Health.

Note: Small differences in rate estimates for Missouri year-to-year and Missouri/U.S. comparisons might not be statistically significant.

MENTAL HEALTH

Serious Difficulty Concentrating, Remembering, or Making Decisions among Adults 18 Years of Age and Older (%)

Lifetime Depressive Disorder among Adults 18 Years of Age and Older (%)

Data Source: Behavioral Risk Factor Survey, Behavioral Risk Factor Surveillance System (BRFSS), Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Division of Population Health.

Note: Small differences in rate estimates for Missouri year-to-year and Missouri/U.S. comparisons might not be statistically significant.

* Binge alcohol use in the Monitoring the Future Survey is defined as consuming 5 or more drinks on the same occasion on at least one day in the past two weeks.

‡ Survey question was re-worded and/or estimate was revised beginning with year indicated. Figures are percentage estimates.

Data Source: Johnston, LD, Miech, RA, O'Malley, PM, Bachman, JG, Schulenberg, JE, & Patrick, ME (2019). *Monitoring the Future national survey results on drug use 1975-2018: Overview, key findings on adolescent drug use*. Ann Arbor: Institute for Social Research, University of Michigan.

* Binge alcohol use in the Monitoring the Future Survey is defined as consuming 5 or more drinks on the same occasion on at least one day in the past two weeks.

‡ Survey question was re-worded and/or estimate was revised beginning with year indicated. Figures are percentage estimates.

Data Source: Johnston, LD, Miech, RA, O'Malley, PM, Bachman, JG, Schulenberg, JE, & Patrick, ME (2019). *Monitoring the Future national survey results on drug use 1975-2018: Overview, key findings on adolescent drug use*. Ann Arbor: Institute for Social Research, University of Michigan.

HOSPITAL TREATMENT WITH PRIMARY DIAGNOSIS OF ALCOHOL USE DISORDER

Emergency Room Services followed by Discharge, Primarily for Alcohol Use, by Planning Region and Year

Emergency Room Services followed by Hospitalization, Primarily for Alcohol Use, by Planning Region and Year

Direct Hospitalization without Emergency Room, Primarily for Alcohol Use, by Planning Region and Year

Data are aggregated to the Planning Regions used by the Missouri Department of Mental Health, Division of Behavioral Health. Counts for these charts are based on ICD-10 diagnosis codes selected by the national Healthcare Cost and Utilization Program (HCUP). Due to the transition from ICD-9 coding in 2015, data prior to 2016 are not included. Pre-2016 hospital counts are available in earlier Status Reports. Each individual is counted only once regardless of the number of hospital or E.R. episodes during the year for an alcohol use disorder.

Data Source: Missouri Department of Health and Senior Services

HOSPITAL TREATMENT WITH PRIMARY DIAGNOSIS OF DRUG USE DISORDER

Emergency Room Services followed by Discharge, Primarily for Drug Use, by Planning Region and Year

Emergency Room Services followed by Hospitalization, Primarily for Drug Use, by Planning Region and Year

Direct Hospitalization without Emergency Room, Primarily for Drug Use, by Planning Region and Year

Data are aggregated to the Planning Regions used by the Missouri Department of Mental Health, Division of Behavioral Health. Counts for these charts are based on ICD-10 diagnosis codes selected by the national Healthcare Cost and Utilization Program (HCUP). Due to the transition from ICD-9 coding in 2015, data prior to 2016 are not included. Pre-2016 hospital counts are available in earlier Status Reports. Each individual is counted only once regardless of the number of hospital or E.R. episodes during the year for an alcohol use disorder.

Newly Diagnosed Tuberculosis Cases: Missouri Residents

Data Source: Missouri Department of Health and Senior Services, Bureau of Communicable Disease Control and Prevention.

BIRTHS

Missouri Resident Births, by Year

Missouri Newborns Affected by Maternal Substance Use, by Year

Note: Beginning in the 4th quarter of 2015, ICD-10 medical coding replaced ICD-9. Due to changes in code labels and criteria, exposure data are not fully comparable to pre-2015 data. Also beginning in 2015, newborns exposed to more than one substance are counted in each applicable substance category.

Percentage of Missouri Resident Births in which Mother Reported Smoking During Pregnancy, by Year

Data Source (all charts): Missouri Department of Health and Senior Services.

DEATHS

Suicide Deaths: Missouri Residents, by Year

Homicide Deaths: Missouri Residents, by Year

Alcohol Induced Deaths: Missouri Residents, by Year

Drug Induced Deaths: Missouri Residents, by Year

Smoking Attributable Deaths: Missouri Residents, by Year

RECREATIONAL BOATING CRASHES

Total Recreational Boating Crashes in Missouri

Recreational Boating Crashes in Missouri by Crash Severity

Recreational Boating Crashes Involving Alcohol or Drug Impaired Operator

Persons Killed and Injured in Recreational Boating Crashes involving Alcohol or Drug Impaired Operator

Data Source: Missouri Department of Public Safety, Missouri State Highway Patrol.
Missouri Boating Statistics & Drownings annual report, 2012-2018 editions.

ALCOHOL AND DRUG ARRESTS

Arrests for Alcohol or Drug Impaired Driving, by Year

Data Source: Missouri Department of Public Safety, Missouri State Highway Patrol, Statistical Analysis Center.

FBI Uniform Crime Reports (UCR) and Missouri DWI Tracking System (DWITS).

Arrests for Impaired Boating, by Year

Data Source: Missouri Department of Public Safety, Missouri State Highway Patrol, Statistical Analysis Center. Uniform Crime Reports.

Arrests for Liquor Law Offenses, by Year

Data Source: Missouri Department of Public Safety, Missouri State Highway Patrol, Statistical Analysis Center. Uniform Crime Reports.

Arrests for Drug Offenses, by Year

Data Source: Missouri Department of Public Safety, Missouri State Highway Patrol, Statistical Analysis Center. Uniform Crime Reports.

Methamphetamine Lab and Equipment Confiscations, by Year

Data Source: Missouri Department of Public Safety, Missouri State Highway Patrol, Division of Drug and Crime Control, EPIC System.

JUVENILE COURT ENCOUNTERS

Referrals to Juvenile Courts for Law Violations, by Year

Juvenile Status Offenses, by Year

* Beginning in 2013, some juvenile municipal violations and infractions were reclassified as status offenses.

Child Abuse and Neglect, by Year

Data Sources: Missouri Office of State Courts Administrator (2009-2019); Missouri Department of Social Services (2000-2008).

OUT-OF-HOME PLACEMENTS OF CHILDREN BY JUVENILE AUTHORITIES

Out-of-Home Placements of Children Removed from their Homes, by Year

Total Conditions Present at Removals, Calendar Year 2018

The DSS Children's Division reports do not capture reasons for a removal but document conditions present. More than one condition may be applicable to a placement, and other factors may also be considered.

Parental Alcohol and Drug Use Conditions Present at Removals, by Year

Parent Drug Use Only and Parent Alcohol Use Only: The conditions at removal do not indicate the presence of both drug use and alcohol use disorders. However, other conditions may also be present.

Data Source: Missouri Department of Social Services, Children's Division. Annual data tabulation.

CRIMINAL JUSTICE INTERVENTIONS FOR ALCOHOL AND DRUG OFFENSES

Missouri Probation for Drug and DWI Offenses, by State Fiscal Year

Data Source: Missouri Department of Corrections. Annual data tabulation.

Missouri Prison Admissions for Drug and DWI Offenses, by State Fiscal Year

Data Source: Missouri Department of Corrections. Annual data tabulation.

Missouri Parole and Conditional Release for Drug and DWI Offenses, by State Fiscal Year

Data Source: Missouri Department of Corrections. Annual data tabulation.

Missouri Treatment Court Participants, by State Fiscal Year

Data Source: Missouri Office of State Courts Administrator. Annual data tabulation.

ALCOHOL CONSUMPTION

Per Capita Consumption of Ethanol in All Beverage Alcohol: United States and Missouri, Ages 14 and Older, by Year

Per Capita Consumption of Ethanol by Type of Beverage: United States and Missouri, Ages 14 and Older, by Year

Data Source: U.S. Dept. of Health and Human Services, NIAAA (2019). Surveillance Report #113: Apparent Per Capita Alcohol Consumption: National, State, and Regional Trends, 1977-2017. Data revised from previous reports.

MISSOURI LIQUOR LICENSES

Retail Liquor Licenses Issued, by Year

Data Source: Missouri Department of Public Safety, Division of Alcohol and Tobacco Control.

Retail Liquor Licenses Issued, by Planning Region and Year

Data Source: Missouri Department of Public Safety, Division of Alcohol and Tobacco Control.

Retail Liquor Licenses, Rate per 10,000 Population, by Planning Region and Year

Data Source: Missouri Department of Public Safety, Division of Alcohol and Tobacco Control.

Rates based on U.S. Census Bureau annual population estimates.

MISSOURI TOBACCO SALES

Trend in Tobacco Tax Revenue (in Millions), by Fiscal Year

Data Source: Missouri Department of Revenue. Annual report: "Taxes Administered"

Apparent Packs of Cigarettes (in Millions) Sold in Missouri Based on Cigarette Tax Revenues, by Fiscal Year

Data Source: Missouri Department of Revenue. Derived from data in "Taxes Administered" annual fiscal report.

Total cigarette sales estimates are based on the cigarette tax portion of tobacco tax receipts.

Breakouts for Jackson County and St. Louis County are based on supplemental county cigarette tax receipts.

MISSOURI UNEMPLOYMENT

Unemployment Rates in the United States and Missouri: Annual Averages, by Year

Unemployment Rates in Missouri Planning Regions: Annual Averages, by Year

Data Sources: Missouri Dept of Economic Development, Missouri Economic Research and Information Center.
 Local Area Unemployment Statistics: <http://www.missourieconomy.org/indicators/laus/default.aspx>.
 U.S. Dept of Labor, Bureau of Labor Statistics. Labor Force Statistics from the Current Population Survey.
 Table: Employment status of the civilian noninstitutional population, 1941 to date.

BEHAVIORAL HEALTH INDICATORS BY GEOGRAPHIC AREA

Maps illustrating the geographic areas are provided in the Status Report Appendix.

- 1 All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
- 2 Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
- 3 Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.
- 4 DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

Admitted without Emergency Room	352	371	377

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

Admitted without Emergency Room	1,124	1,141	1,045

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

Admitted without Emergency Room	1,891	1,771	1,077

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

Admitted without Emergency Room	2,213	2,062	2,296

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

Admitted without Emergency Room	391	382	281

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

Unemployment Rate	2.9%	3.2%	4.1%

- All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
- Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
- Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.
- DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

- 1 All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
- 2 Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
- 3 Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.
- 4 DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

Emergency Room, then Discharged	4,563	3,723	3,592
Emergency Room, then Admitted	3,060	2,917	2,175
Admitted without Emergency Room	3,822	3,735	3,449

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.

¹ All Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.

² Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.

³ Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes selected by the national Healthcare Cost and Utilization Program. Due to conversion from ICD-9 to ICD-10 codes in October 2015, hospital and emergency room counts for 2016 and 2017 may not be comparable to 2015 or earlier years.

⁴ DSS Children's Division reports do not capture reasons for removal but document conditions present. Only the substance use conditions are included in this profile. There are often multiple conditions and factors considered when a child is placed out of the home.
